# Shadow Boards

## Shadow Boards

Designed to help simplify workplace procedures and processes, Shadow Boards help to quickly identify missing items whilst also being a key part of providing effective workplace organisation.

Suitable for a variety of applications, from organising cleaning tools to Lockout and hand tools. Allowing you to implement essential 5S methodology easily into any working environment. Shadow Boards are available free standing, on castors, or wall mountable with pre-drilled holes and fixings for easy installation.

Available with or without stock and even colour coded to individual work areas or tool sets to avoid cross contamination.

## Custom

*Our bespoke sign manufacturing team have extensive experience producing and installing a range of Shadow Boards nationwide.*

From single units to large scale factory 5S systems, we can be depended upon to provide a fast and efficient service at a competitive RRP.

We understand that you may have specific requirements for your Shadow Boards and our team are happy to use your own artwork, or work with you to design your Shadow Boards to your exact specifications.

Contact us for more information on how we can help bring 5S Shadow Board systems to your workplace.

-  **SORT**
-  **STREAMLINE**
-  **SHINE**
-  **STANDARDISE**
-  **SUSTAIN**

Implement **Lean Manufacturing** with a custom designed 5S Shadow Board as part of a planned procedure.

## Colour

All Shadow Boards and components are supplied in a range of colours, with blue, red, yellow and green available for immediate delivery.

Lead times may vary on non-standard colours, please contact us for more information.
