GEDORE workster highline: a special workshop aid!

From the lift to the workbench and back to the balancer - rapid working is often called for as is the right service tool always being available. The workster highline is your mobile assistant when it's a matter of being here, there and everywhere in the workshop. Thanks to the roll protecting edge, screws and other incidentals can be put down on the work top which also has special fixtures for spray cans and screwdrivers. Up to 40 kg of service tools can be put away in each of the two sizes of the fully extendable seven drawers. The square perforation at the sides allows additional accessories to be mounted. The workster highline is available both non-equipped and equipped with high-quality GEDORE tool modules. With a total load capacity up to 500 kg, it is extremely sturdy and stable. It is highly manoeuvrable thanks to the drive/steer handle and is easy to steer even when fully loaded.

NEW

WHL-L7 TOOL TROLLEY WORKSTER HIGHLINE

with 7 drawers

HIGHLIGHT
€749,00
excl. VAT
Body:

- > Dimensions: H 1045 x W 785 x D 510 mm
- > Working platform with top made of PP plastic with front flattening, anti-roll safety edge and small additional trays, can and screwdriver holders
- > With handle for easy pushing, pulling and turning
- > Side walls with square perforation 10 x 38 mm to fix hooks and tools
- > Sides rounded off – minimising abutting edges
- > Stainless steel insert in top
- > Welded body, self-supporting and torsionally rigid
- > Sheet steel, corrosion- and scratch-resistant powder-coated

Drawers:

- > Individual drawer stopping stops more than one drawer being opened, single-handed operation
- > Central locking with a cylinder lock and safety key, bends under stress without breaking
- > 5 flat, wide drawers (W 640 x D 400), fully extending
- > 2 high, wide drawers (W 640 x D 400), fully extending
- > Ball bearings
- > Load capacity per drawer 40 kg
- > Sheet steel, corrosion- and scratch-resistant powder-coated

GEDORE chassis:

- > Total load capacity 500 kg
- > 4 smooth running wheels on ball bearings (swivel castors Ø 125 mm) with thread guard, two with total brake
- > Even with maximum loads: still smooth running, manoeuvrable and keeps to the track

Options:

- > Can be equipped with GEDORE tool modules (1500 ES, 1500 CT, 2005 CT, TS-147, TS-190, TS-308)
- > Can be individually equipped with length and crosswise dividers
- > Special colours and designs available on request
- > Delivery without tools and accessories

On the go with GEDORE: socket sets in the textile bag

Sometimes lacking when wanting to be fully fitted out for maintenance or installation work is a space-saving way of transporting one's service tools. That is why a variety of GEDORE socket sets now have their place in sturdy, lightweight cloth bags. Reversible ratchets, bits and matching accessories are embedded in foam modules. They can be directly inserted into the drawers of the GEDORE tool trolleys. The strong velcro fastener stops the bags accidentally opening when being carried. Those who have always wanted to have their GEDORE socket sets handy when on the go are in the right place here.

If a little more force is needed ... GEDORE telescopic reversible ratchet

It happens with in the workshop on a daily basis: a severely corroded, ultra-tight screw. This is where the GEDORE telescopic reversible ratchet of chrome-plated 31CrV3 vanadium steel with a non-slip dual-component handle can help out. In just a few simple movements the right lever can be safely set. The telescopic reversible ratchet can be adjusted in eight steps from 400 mm to 600 mm. The control lever ensures a one-handed step change. This is down to the lever automatically clicking into place for clockwise or anticlockwise operations. Locking is undertaken at the centre position. Thanks to the push-button release, hand-operated sockets and ball-locked connectors are securely attached to the ratchet. The telescopic reversible ratchet has a 7.5° return angle. Being particularly ergonomic it provides more freedom of movement when you are working.

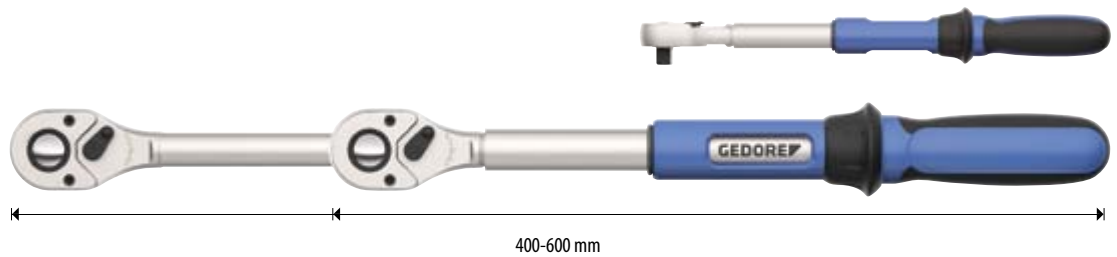

NEW

1993 TU-10 TELESCOPIC REVERSIBLE RATCHET 1/2"

- > Long lever arm for high torques, max. torque 600 N·m
- > Adjustable from 400 to 600 mm in 8 steps
