RELIABILITY, QUALITY AND SERVICE

Company Brochure Issue 12α

Bespoke Workspace Solutions
Hazardous & General Storage Cabinets
Workbenches | Trolleys | Stainless Steel

FM 501458

INTRODUCTION FROM DANIEL

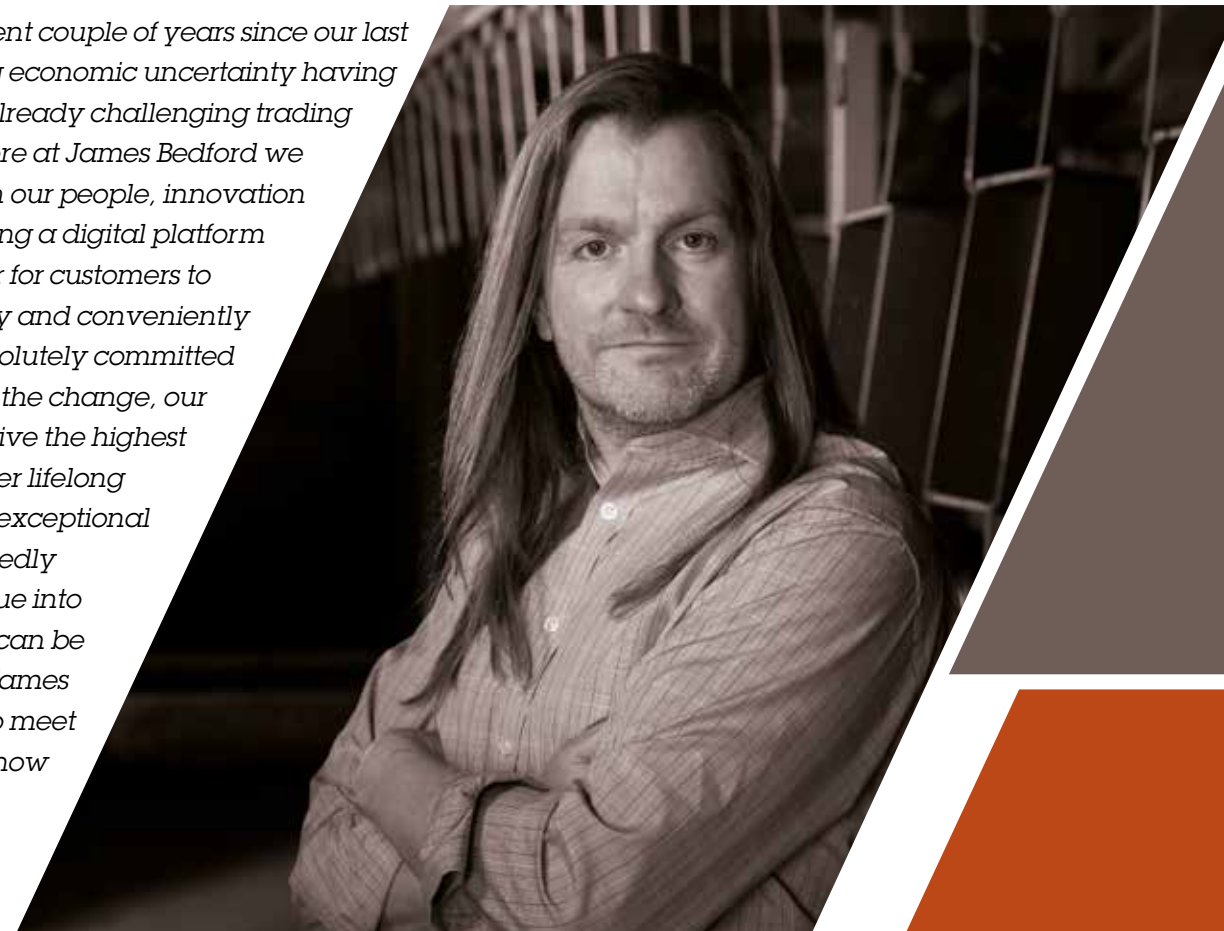

It's certainly been a turbulent couple of years since our last brochure with the resulting economic uncertainty having a negative impact on an already challenging trading environment. However, here at James Bedford we have continued to invest in our people, innovation and new initiatives including a digital platform which makes it even easier for customers to access our products quickly and conveniently on-line. We have been absolutely committed to ensuring that despite all the change, our customers continue to receive the highest quality products that deliver lifelong value whilst experiencing exceptional customer service. Undoubtedly the uncertainty will continue into 2019 and beyond but you can be absolutely certain that at James Bedford we will continue to meet all your workspace needs now and into the future. Thank you for your business and we look forward to serving you again in the coming years.

Daniel Cookland
Managing Director.

NEW FOR 2019

As the demand for a visible on-line presence grows we have made a significant investment in re-launching an e-commerce enabled website to help all our customers select the right equipment for their workspace. Currently a range of our products are available to buy on line and we'll be adding to this selection over the coming months. We will be updating the website frequently with case studies of bespoke installations for customers, new product information and industry insight to help you keep up to date with all the latest information. And if you can't see what you're looking for on the website we are available and will be happy to discuss the options and solutions for your workspace needs.

PREMIER SHIELD

Key Features:

In addition to our standard powder coating we have developed an anti-bacterial coating with active silver ions that penetrate bacterial cell walls and prevent growth. PremierShield is available in a range of colours and is effective against both gram negative and gram positive bacteria. It is recommended as an aid to hygiene best practice in laboratories, schools, public buildings and hospitals.

RESULTS OF INDEPENDENT TESTS

Bacteria Tested	% CFU reduction
Staphylococcus Aureus (MRSA)	99.99
Escherichia (e-coli)	99.99
Pseudomonas Aeruginosa	99.99
Bactillus Subtilis	99.98
Salmonella Enteritidis	99.98
Listeria MonocytogeneS	99.98

WHO WE ARE

James Bedford has been under the current family ownership since 1974 but has been established as a Yorkshire manufacturer for over 100 years. Having passed through 3 generations since our early days, the principles of quality, value and customer service are as strong today as when Ernest Howker proudly took up the reigns over 40 years ago.

Whilst our company values remain unchanged, James Bedford has adapted our range of market leading industrial and commercial furniture to access new and exciting markets. These days our equipment can be found in situ across a broad range of industries including education, defence, pharmaceutical, petro-chemical, manufacturing and food preparation. And it can even be found beyond British shores with regular exports being made to European and Middle Eastern markets.

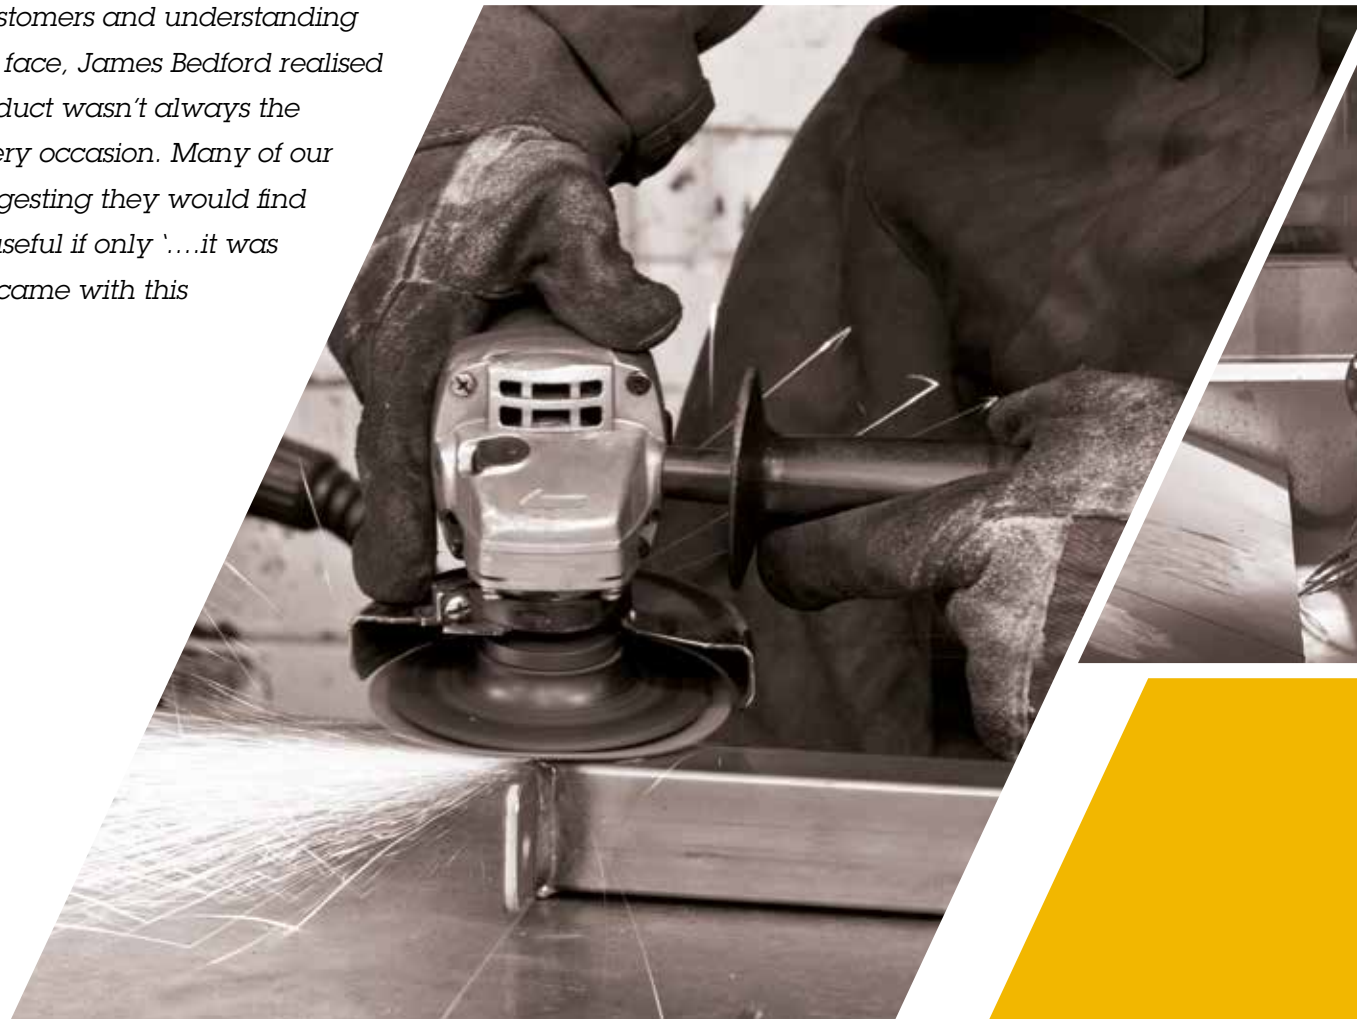

James Bedford has also listened closely to our customers over the years and adapted the services and products offered to exceed customer needs. Our standard range of products continues to deliver reliable and cost-effective solutions for many situations but the development of a bespoke design service has proved vital for a growing number of customers. Working with customers to deliver end-to-end project management through design, production and installation, we have developed expertise in bringing our customer's vision to life.

James Bedford remain committed to providing jobs and revenue to the Yorkshire region with a 30,000 sq ft base just outside Leeds, employing a team of almost 30 people. Alongside the expertise, scale and track record needed to supply high profile customers both at home and abroad, James Bedford also strive to uphold the solid Yorkshire values that Ernest instilled into the business back in 1974.

BESPOKE SERVICE

From listening to customers and understanding the challenges they face, James Bedford realised that a standard product wasn't always the right solution on every occasion. Many of our customers were suggesting they would find our products more useful if only '...it was a bit shorter' or '...it came with this widget attached.'

Committed to finding the right solution and delivering outstanding customer service, we started to develop our design capabilities and tailor existing products to meet the specific needs of a whole range of customers. By adding a couple of drawers or removing a couple of feet, customers quickly found that we were able to modify standard equipment to make it more efficient and applicable to their unique circumstances.

Not content with making a few modifications to existing product lines, James Bedford have now extended that design and production capability to offer an end-to-end project management service to build the exact workspace that a customer needs. From the initial design, to in-house production, installation and maintenance, we work with customers every step of the way, tailoring plans and overcoming challenges to ensure that every minute detail is captured in creating the perfect space.

From premium consumer garages including BMW, through to scientific development and food preparation James Bedford has created efficient, unique and tailored work spaces that help businesses operate more effectively.

Over the next few pages are examples of the work we have already delivered on behalf of customers. In over 40 years there haven't been many challenges the team couldn't overcome so whatever the size of your idea, we have the experience and skill to deliver it.

If you think your business could benefit from a no obligation design consultation please contact a member of the sales team on 01924 442048.

GLOBAL HEALTHCARE LABORATORY

Creating a clean, efficient and professional workspace is critical to any business involved in the manufacture and repair of high tech medical equipment for use in intricate surgery. One such organisation approached James Bedford to create a fully bespoke and tailored workspace in their new premises.

The customer had become frustrated with the lack of flexibility in the market for delivering against their unique needs and approached James Bedford having learnt about their capability to manufacture equipment to a bespoke plan.

Teams from both organisations worked together to design, develop, manufacture and install a combination of static and mobile workbenches in combination with drawer & cabinet units and accessories. Components used by the customer can be less than 1mm in diameter and therefore unique worktop colour combinations were required to ensure visibility of elements placed on them. Equally, specialised drawer units were created to house the specific measurements of the tools and equipment being stored.

Upon completion of the installation the team were delighted to move into a clean and bright environment, with efficient workspaces that reflected the professional and hygienic sector in which they operate.

"The whole process of working with James Bedford has been trouble free from start to finish. We worked as one team to develop the equipment that perfectly matched our needs and it was delivered on-time, in-full with the minimum of fuss. We are confident we have lifetime value through high quality equipment which enables our team to do their job effectively and wouldn't hesitate in working with James Bedford on one of our many other global sites"

Integration Project Manager

SANDAL MOTORS (BAYERN) LTD

When you're operating a site that processes over 2,500 premium quality vehicles a year, nothing can be left to chance. And that's exactly why Sandal Motors recruited James Bedford to help design and fit out their new facility with a completely bespoke solution.

Requiring a top end facility that was engineered around the needs of the technician and the BMW brand, Sandal worked with the team at James Bedford through every stage of design, production and installation to ensure that each unique specification was understood and addressed.

From design detailing such as oil and air cabinets at waist level to minimise the risk of back injuries, to minimising exposed pipework, every inch of the installation was carefully considered and tailored to maintain the premium look and feel of the workspace whilst maximising operational capability.

"What really mattered to us was finding a supplier who could manage the project end-to-end through design, production and installation. James Bedford definitely fit the bill in that respect and went on to impress us with their flexibility, attention to detail and innovative ideas. We've now got a great workspace which meets all our specific needs and the whole process was easy and hassle-free"

Matthew Duke, Service Manager, Sandal Wakefield

HAZARDOUS STORAGE CABINETS

A range of high quality and reliable storage cabinets which are fully compliant to all current regulations, creating safe and secure workspaces for those working with hazardous materials.

All prices include full standard delivery costs to mainland UK (excluding Scottish Highlands, Islands and overseas). For express delivery quotes please contact the sales team.

For more information and on-line exclusives visit
www.jbedford.co.uk

* Illustrations may vary to actual products delivered in line with any changes to hazardous storage legislation. All Hazardous Storage warning symbols and specifications correct at time of going to press.

Hazardous Cabinets

A range of high quality, medium duty hazardous storage cabinets which are fully compliant with current regulations, helping to create safe and secure workspaces. These cabinets cover a range of hazards including flammable liquids or irritants, acids, agrochemical & pesticide products along with First Aid and PPE storage. There are a range of standard sizes available along with wall-mounted and mobile options. Most cabinets can also be fitted with a set of castors for greater flexibility. All cabinets are supplied with shelves placed loosely in the base to be fitted at the desired height by customers. All products supplied with appropriate hazard warning label applied.

Key Features:

- Welded construction from 0.9mm steel to deliver lifelong value & durability
- Removable sump trays to catch leaks & spills (excluding 305mm deep sizes) on most ranges
- Adjustable shelves with 75KG UDL with a fully welded retaining lip to also use as a drip tray
- Strong & secure 3-way locks housed in reinforced, rebated doors
- Supplied with Premier Shield anti-bacterial powder coating as standard
- Zinc coated steel for Acid & Alkali and Agrochemical & Pesticide cabinets

Accessories

Accessories such as floor stands, sump trays, castors and extra shelves can all be ordered to complement your cabinet and create your ideal storage solution. When ordered at the same time as a cabinet there is no additional delivery charge for accessories (if ordered separately a £15 delivery charge applies). Across the following pages you will be able to view the full range of accessories to complement your order including:

Extra Shelves

Available in all colours, please see website for further details.

Sump Trays

Available in all colours, please see website for further details.

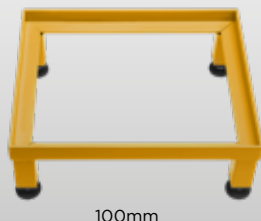

Floor Stands

Available in a height of 450mm and 100mm

450mm

100mm

Castors

These must be factory fitted and are available on all cabinets excluding 1830mm high

Wall Mounts

610 x 610 x 305 and 712 x 915 x 305 cabinets can be ordered with holes drilled in the rear for easy wall mounting (hanging brackets not included)

Visit www.jbedford.co.uk for exclusive online products and colour options

Visit www.jbedford.co.uk for exclusive online products and colour options

Grey Flammable Storage Cabinets 88 SERIES MEDIUM DUTY

Welded & riveted construction fabricated from 0.9mm thick sheet steel enclosed at the front by reinforced rebated doors secured by 3 way locking chrome lever handle (supplied with 2 numbered keys from mastered series as standard). Supplied with fully adjustable welded steel shelves which can be inverted and used as spillage trays each with a 75KG UDL capacity. Removable liquid tight sump tray in all models excluding 305mm deep. Finished with steel work electro statically powder coated in anti-bacterial Blue Grey (RAL 7031) and supplied with the appropriate hazard warning label.

Need A Different Size or Colour?

As we manufacture all our hazardous cabinet range on site, if you can't see the size and colour that you need we can make it for you. You can choose any colour from our standard range at no additional cost.

All our standard range of colours contain Premiershield - an anti-bacterial coating which kills up to 99% of germs in the workplace.

Whatever the dimensions for your workspace we can create the perfect fit for your cabinets - just send your requirement to sales@jbedford.co.uk and we can quote you a price.

Need A Different Size or Colour?

As we manufacture all our hazardous cabinet range on site, if you can't see the size and colour that you need we can make it for you. You can choose any colour from our standard range at no additional cost.

All our standard range of colours contain Premiershield - an anti-bacterial coating which kills up to 99% of germs in the workplace. Whatever the dimensions for your workspace we can create the perfect fit for your cabinets - just send your requirement to sales@jbedford.co.uk and we can quote you a price.

Acid & Alkali Cabinets 88 SERIES MEDIUM DUTY

Welded & riveted construction in 0.9mm thick zintec steel for extra corrosive resistance designed to store acids safely. Supplied with adjustable spillage trays / shelves with a 75kg UDL capacity and liquid tight sump tray (except 305mm deep cabinets). Doors are reinforced rebated double doors secured by strong 3 way locking chrome lever handle (supplied with 2 numbered keys from mastered series as standard). High visibility powder coated finish in Signal White (RAL 9003) with appropriate warning labels. Note that these cabinets are for storing acids safely and do not claim to be acid proof. It is recommended that acids are stored in their original containers with the lids in the closed position.

Key Features:

- Retaining lip to doors creates secure seal for extra peace of mind.
- Lift out base sump to catch spillage and safely remove from the cabinet.
- Zinc coated for additional protection from corrosive materials
- Welded, adjustable spillage trays/shelves. (Supplied loose in the base of cabinets for customers to fit at the required height. Can be secured lipped up to act as a tray or lipped down as a shelf)

Flammable Vaults

53 SERIES

HEAVY
DUTY

These flammable liquid storage vaults are of fully welded construction, fabricated from 2.0mm thick steel sheet with single skinned walls. Internally the vaults have a sealed integral sump with a drain plug outlet and hi lo vents fitted with flash arrest copper mesh. The full-area, lift up lid is mounted on heavy-duty pin hinges supported by a pair of gas-springs (one of which is locking) to support the lid in the open position. Secured by a matched pair of five lever mortice locks with a heavy duty hasp and staple provided for padlock if required (padlock not supplied).

All items on this page are available in any colour from the standard range at no extra cost. Please choose from the RAL chart at the back to select your option and add the RAL number to your order.

Flat Top Bins

55 SERIES

MEDIUM
DUTY

These hard wearing flammable storage bins are constructed from 1.2mm sheet steel with a flat top and sealed, removable sump tray making them perfect for the secure storage of larger bottles of hazardous material. These units are fitted as standard with a hinged, flat lid and secured by hasp and staple. These reliable and tough storage solutions come in range of standard Hazard colours including Traffic Red (RAL 3020).

PREMIER WORKSHOP

An innovative and flexible system which creates unique workspace solutions using bespoke combinations of standard cabinets and accessories.

All prices include full standard delivery costs to mainland UK (excluding Scottish Highlands, Islands and overseas). For express delivery quotes please contact the sales team.

For more information and on-line exclusives visit
www.jbedford.co.uk

All standard products can be ordered in any colour configuration from our RAL chart on page 71. There is no extra charge for these standard colours. Where colour matching is required please call for details and costs.

Flexible, Bespoke and Affordable Modular Workshop Solutions

As no two workspaces are the same we've developed the simple and innovative Premier Workshop modular system which allows you to select the exact kit and accessories you need to build the perfect solution. With dozens of combinations of work stations, drawers, cabinets and accessories you can be confident that whatever you need, we can create it for you.

How does it work?

1

Select the base cabinet units you require.

2

Add in the extras you need

3

Choose accessories to complete your workspace

So you could take one double door cabinet

PWS815B

Add a louvered panel, accessories and worktop + short support posts

PWS815B
PWSAP2S
PWSLP1
PWSWT10L

Add rear support posts, and finish off with a top cabinet (long support posts required)

PWS815B
PWSAPIL
PWSLP1
PWSWT10L
PWS413B

In the example below, a 4m run was created using a combination of cabinets, drawer units and accessories to create an efficient garage workspace for the storage of tools and equipment. To replicate this structure, order using the product codes shown beneath each component.

INFINITE Workbench System 1000kg UDL

INFINITE SYSTEM: Start with a 2M or 3M starter workbench and simply use add-on workbenches and accessories as required.

STRENGTH & FLEXIBILITY: Framework is constructed from fabricated steel section with welded leg supports and bolt in multi-position cross rails, which can be assembled in a variety of combinations to suit individual applications. Steel work powder coated Blue Grey (RAL 7031).

Benches (25mm MDF Worktop A)

All benches are 840mm high as standard.

C = 25mm thick industrial marble grey lino. 2mm lino surface on composite core. Edge banded in 2mm thick grey plastic.

All base shelves are 18mm thick plain cut MDF

13 Amp Socket
Order code: LS1

Pre-punched to accommodate pipe work

Workbench System 1000kg UDL INFINITE

CONVENIENCE: Each bench is supplied in flat pack form, the larger units having sectional worktops for ease of handling. Available in 2 lengths, 3 depths, and 3 worktop options.

ECONOMIC: This system offers great economic advantages over standard workbench sizes e.g. the 3000mm x 1200mm workbench (opposite) is the equivalent working area of 4 x 1500mm x 600mm workbenches.

COLOUR RANGE **STANDARD**

Below is our Standard range of RAL colours.

* Textured finish available on request but not with Premier Shield. Textured finish supplied as standard on Jet Black and Pantone 2B2U.

Different monitors may display shades on screen which are slightly different to the finished product. Should you require a sample patch of the exact colour to be sent prior to ordering please contact our sales team.

COLOUR RANGE **CUSTOM**

Other colours are available upon request.

PREMIER SHIELD

Key Features:

In addition to our standard powder coating we have developed an anti-bacterial coating with active silver ions that penetrate bacterial cell walls and prevent growth. PremierShield is available in a range of colours and is effective against both gram negative and gram positive bacteria. It is recommended as an aid to hygiene best practice in laboratories, schools, public buildings and hospitals.

RESULTS OF INDEPENDENT TESTS

Bacteria Tested	% CFU reduction
Staphylococcus Aureus (MRSA)99.99
Escherichia (e-coli).99.99
Pseudomonas Aeruginosa99.99
Bactillus Subtilis99.98
Salmonella Enteritidis99.98
Listeria MonocytogeneS99.98

TERMS & CONDITIONS

Prices quoted are exclusive of VAT. Images are for illustrative purposes only and we reserve the right to make any changes to dimensions or specifications without prior notice.

Please note our normal delivery service is applied to this priced product guide and does not include a day or time specific option.

Unless otherwise stated prices include delivery to mainland UK. Prices for delivery to Sottish Highlands, Islands, AB postcodes and overseas can be provided on request

Normal deliveries will take place between 8:00am and 5:00pm Monday to Friday. A special delivery service can be arranged for an additional charge.

Unless otherwise stated prices include delivery to mainland UK. Prices for delivery to Sottish Highlands, Islands, AB postcodes and overseas can be provided on request.

Other than collection, goods will be delivered to the nearest point of entry, off-loading being the responsibility of the customer, e.g. a ground floor reception/goods inward area - not positioning on site.

All goods must be checked for damages and/or shortages before signing the delivery note(s). Please contact us for authorisation in the

unlikely event of returning goods. There is a handling charge of 15% of the invoice value plus delivery charges will apply.

Bespoke items cannot be returned unless deemed defective/faulty.

Lockers are non returnable unless deemed faulty or damaged.

Minimum order value on lockers £150.00 net or carriage is applicable.

We can accept orders on a call off basis if the delivery dates are agreed and quoted on the purchase order. Call off dates may not be changed without prior agreement.

First orders are on a pro-forma basis. Subsequent orders are payable on nett monthly account subject to status.

Retention of Title - Goods remain the property of the manufacturer until paid for in full.

Please see our website for full Terms & Conditions Of Sale.

(Company Brochure issue 12a 01-01-19).

Please note: Prices are correct at time of publication (January 2019) however due to fluctuations in raw material cost, prices are for reference only. To confirm the current prices please contact the Sales Team.
