

# QUARTERLY NEWSLETTER MARCH 2019

LET US SOURCE IT FOR YOU!

## ***We wish him well for the future...***

We are both delighted and disheartened to announce that Frank has decided to retire. His last day at J&C is Friday 29<sup>th</sup> March 2019.

Frank joined us 7½ years ago in the Sales & Purchasing Coordinator role and came to us with over 40 years of our industries knowledge and experience. He is very gifted with his vast knowledge of engineering, especially cutting tools and inserts. We all also recognize Frank as a walking thesaurus and for his courtesy, amicability and his cheeky smile and chuckle. Frank's retirement is our loss, but a well-deserved respite for him. Frank has been a tremendous employee.

Obviously we are celebrating his retirement with him but I would just like you all to have the opportunity to wish him well before he goes therefore I have placed his email address below. We all wish Frank the very best for the future and to make it known that he will be greatly missed!

### Health and Safety Executive **SAFETY ALERT**

Change in Enforcement Expectations for  
Mild Steel Welding Fume – February 2019

#### **Are you aware of the new Welding Fume PPE legislation?**

**Target Audience:** All workers, employers, self-employed, contractors and any others who undertake welding activities, including mild steel, in any industry.

**Key Issues:** There is new scientific evidence that exposure to all welding fume, including mild steel welding fume, can cause lung cancer. There is also limited evidence linked to kidney cancer.

*(Extract taken from HSE Website)*

Please use link below to view the complete HSE Information:  
<http://www.hse.gov.uk/safetybulletins/mild-steel-welding-fume.htm>
