ULTIMATECUT®

More precise. More powerful.
Faster.

The specially developed flute parameters, such as the angle, the transition radius as well as the extra-wide chip flute, ensures optimal chip and heat removal and therefore enables a high wear resistance. Furthermore, the new geometry prevents material welding and reduces the countersinking force.

The variably running relief grinding was specially developed and ensures a very quiet countersinking procedure and a perfect surface quality, which guarantees the best results. (The new RUnATEC coating increases the quality additionally)

Twist drill set DIN 338 type N,
HSS ground in plastic case

25-piece set of twist drills
 DIN 338 type N HSS
 \varnothing 1,0 - 13,0 x 0,5 mm

25 Article no.
 tlg./pcs. **214 215 RO**

£ 30,25
 Valid until 31.12.19
